

Dear 8th Grade Parents, Guardians, and Students,

Please see the message below from Mrs. McCall, our school nurse.

Dear Parents and Guardians:

Attached, please find the Medication Permission Request Form that needs to be completed and submitted to myself no later than March 31, 2023.

This form only needs to be completed if your child has a medical condition that requires them to take medication while we are in Washington, D.C., or if you would like your child to be able to take over the counter medication (ex. Tylenol, Motrin, melatonin, etc.) while we are in Washington, D.C.

If your child has a medical condition and you have a physician's current orders on file with me, then you do not need to complete this form. If updated forms are not on file with me then this form, or physician's orders on a prescription pad will need to be submitted prior to the trip.

When submitting this form you can also submit the medication in its original bottle together in a plastic bag with clear instructions. You may also just submit the form by the 31st and give me the medication in its original bottle in a plastic bag with clear instructions the morning of the trip.

Things to consider if unsure if you need this form filled out

My child takes medication and or vitamin that are given daily not during school time and should not be withheld for the trip?... You need this form!

My child gets headaches, car sick or takes melatonin at night? I recommend this form.

My child suffers from seasonal allergies and requires allergy medication at times of the season? I recommend this form, DC is about 2 weeks ahead of its normal bloom, I anticipate high allergies kicking in!

I hope this helps clarify any questions or concerns you may have!

If you have any questions, please feel free to contact me.

Susan McCall
