

Dear Netcong School Families:

As you know, our single most important responsibility is ensuring the safety of everyone in our schools each day. New Jersey State Law specifies that all public schools must engage in monthly regular safety and security drills.

In accordance with updated guidelines for schools, an email will be sent out following each drill to inform you that a safety and security drill took place.

Today, the students and staff in our school successfully participated in a school security drill. We will continue to review as well as practice essential safety/security routines and procedures throughout the course of the school year. Should you have any questions, please do not hesitate to contact me.

Thank you,

Kate Walsh
